"OLD RAG OF TREASON"

Is the Way General Palmer Refers to the Flag of the Southern Confederacy.

NEW YORK, Nov. 27.—The Herald this morning publishes the following article, giving in part the firey language which produced a sensation at a Brooklyn banquet: "But, in doing honor to the people of the south, they should not confront us with that damned stinking old rag of treason." These were the words of General Palmer, commander-in-chief of the Grand Army of the Republic, in the course of his remarks at an early hour yesterday morning at the banquet given in his honor and also in honor of Gen. Chas. B. Freeman, the state department commander of the G. A. R., in the Clarendon, Brooklyn. There was an outburst of applause from many of the Grand Army leaders who were present, while others smiled and whispered that the general was excited. General Horatio C. King, secretary of the society of the Army of the Potomac, who was toasted, was belived to be instrumental in povoking the firey remarks of General Palmer. After telling a humorous story, General King referred to the address made by Commander-in-Chief Palmer at a reception held in the early part of the evening at the Fourteenth Regiment armory. He construed what General Palmer had said at the army as the expression of a desire for the severance of fraternal resolutions with the southern veterans, if the confederate flag was to be used upon occasions when war veterans fraternized with them. In his reply to General King, General Palmer said: "There is no class of men on God's earth that are half so much appreciated for their valor and gallantry, or that so reflected credit on American valor, and whom we are so willing to forgive, as the soldier of the south, but we cannot forget the loss of hundreds of millions of money and of the lives of hundreds of thousands of men who are now lying in their graves because of the rebellion. In doing honor to the people of the south they should not confront us with that stinking old rag of treason. I believe that the men who were in the struggle want no more fighting, but when we listen to the young scions who say that the confederacy is to them an inspiration, and that they will revenge the cause of their soldiers, it seems too much to bear in silence. Loyalty to the stars and stripes will ever nerve us in the cause of the union." A general feeling of regret prevails among veterans that the confederate flag question was introduced at the banquet.

GOV. HOVEY BURIED.

The Funeral of Indiana's Dead Governor at Mt. Vernon on Thanksgiving.

MT. VERNON, Ind., Nov. 27.—The funeral services over the remains of the late Governor Hovey took place here yesterday. At 9 o'clock promptly the remains were moved to the corridor of the court house. The bells of the city began tolling as the coffin was carried out of the Hovey homstead and continued to sound during the entire forenoon. The remains rested in the court house until 11:30 o'clock, and it is estimated that during that time ten thousand persons passed by the remains. Upon the body being taken back to the homestead the military guard was withdrawn and the dead governor was left alone with the family for one hour. During that time no one was admitted to the house. At 12:30 o'clock the house was opened for the funeral services.

The services were simple. The sermon was preached by Governor Ira J. Chase, who talked for twenty-five minutes. The governor briefly reviewed the life of the dead governor, and drew from it a lesson for the American youth. The services closed with singing and prayer, and the procession to the grave was immediately formed. In all ten companies, nearly one thousand G. A. R. men, from posts in the first district, were marched to the grave. Reaching the cemetery, Department Commander Walker took his place at the head of the grave and the department chaplain at the foot.

The beautiful ritual of the G. A. R. was gone through with, and when the department commander had finished, he called upon ex-Governors Porter and Gray for remarks. Each spoke briefly of the virtues of the dead governor. The exercises were closed with prayer by Governor Chase, then, while all stood with bowed heads, the militia fired a salute and the G. A. R. bugle sounded taps.

BUSINESS PARALYZED.

The Atlantic Mail Steamers Leave Halifax in a Bad Shape.

HALIFAX, N. S., Nov. 27.—The withdrawal of the Atlantic mail steamers has interfered greatly with the business of this port. At present there are eight steamship cargoes awaiting shipment here and it is said that the Donaldson line will send several boats from Glasgow to carry over their freight. Some of the goods which ought to be going forward now cannot be shipped before the middle of January.

TACOMA'S LANDSLIDE.

Five men were injured and two men who were carried into the river have not been accounted for. The dead are, Andrew Anderson, aged thirty-two, Charles Johnson, twenty-six, both unmarried. The injured are John Miller, back injured, John A. Kellund, left arm badly broken, Hans Graham, wrist sprained, William English, contusion of knee, ankle, hip and abdomen, probably injured internally. None of the injured are married. NOT GUILTY.

Lieut. Fromentle Acquitted of Carelessness in Sinking the Plucky.

LONDON, Nov. 27.—The verdict of the naval court of inquiry into the disaster which occurred off Plymouth on the 29th of October, when two fishing boats were sunk and a man drowned by shots from her majesty's gun-boat Plucky, during target practice, is published today by the admiralty office. The court acquitted Lieutenant Fromentle, who was in charge of the Plucky at the time of the accident, of any negligence in the sinking of the boats, and stated that the disaster was due to an error in estimating the distance owing to the peculiar condition of the atmosphere. The officers and crew of the Plucky claim that the damage was done by erratic shots. The finding of the court is severely criticized by the fishermen and their friends, who claim that the whole proceedings of the court plainly indicated that Lieutenant Fromentle was to be exonerated from any blame in the matter. Vice Admiral, the Hon. Sir R. H. Fromentle, M. C. B., father of Lieutenant Fromentle, attended yesterday's sessions of court, all the officers of which, being of a lower grade, were believed to be susceptible to his influence. Mr. Pearcy Pearce, of the firm of Bond & Pearce, solicitors of Plymouth, who has been representing the fisherman, wrote recently to Mr. Ricard, secretary to the duke of Edinburg, naval commander in chief at Devon Port, asking whether the court would, in addition to investigating the immediate cause of the fatality, receive evidence regarding the practice of shooting generally in and near Plymouth not bearing directly on his particular case. An unfavorable reply was received.

Messrs. Bond & Pearce wrote again, regretting the denial of their request, and expressing the belief that startling results would follow from such an inquiry.

The case just decided has excited the greatest interest in commercial and naval circles.

LAST NIGHT'S FIRES.

Narrow Escape of Factory Girls—Boston Suffers Heavy Losses.

NEW YORK, Nov. 27.—Goodwin's cigarette factory, at Grand and Cherry streets, was damaged to the extent of $40,000 by fire this morning. The 300 girls in the factory became panic stricken and were with difficulty restrained from jumping out of the windows on the first story, after rushing down the stairs and finding egress from the building slow on account of the crowding of the doors, but no one was hurt.

BOSTON, Nov. 27.—Fire started about 11:30 last night in the four story granite structure, Nos. 209, 211 and 213 Tremont street, and having a depth of about forty feet of Van Rensselear place, owned by J. A. Little. Before it was extinguished the damage to the building was about $11,000; fully insured. Tickner & Co., publishers of the American Architect and other publications, on the second floor, will lose $500. The Heliotype Printing company had an architect's room on the second floor and used the fourth floor for the storage of stock. The firm's loss on fine engravings and lithographic goods will exceed $15,000.

THE COAL SITUATION.

The National Officials of United Mine Workers Indorse the Strike and Vote Aid.

TERRE HAUTE, Nov. 27.—The national officials of the United Mine Workers' yesterday formally indorsed the miner's strike in Indiana and voted the strikers financial aid out of the national treasury.

The line of battle between the miners and operators is thus drawn. This action was taken by President Rae and Vice President Penna, who investigated the strike in all its phases, and found that it merited the strongest sympathy of the national organization. The miners' convention today decided to send a circular to all the miners in the United States asking for their financial support in the present struggle. A resolution was adopted that all miners and mine laborers in Indiana where the prices demanded are being paid, pay an assessment of not less than 5 cents per ton for the support of the strikers. A resolution was adopted with enthusiasm that, as the national officers had indorsed the strike, and as the operators had refused all advances toward a just and honorable settlement, that the miners of Indiana accept the challenge thrown down by the operators, to continue the struggle if necessary till the first day of May, 1892.

The convention condemned the action of miners who leave Indiana and go to work in the mines of Illinois, on the ground that the Illinois mines are direct competitors of this field. The convention specifically named the mines at Grape Creek, Danville and Pana, which injure the miners' chances of success in Indiana. The state officers were requested to negotiate with the Illinois officers to prevent, if possible, such injurious competition.

The closing resolution of the convention was one vesting in the state officers all the necessary means of conducting the strike and pledging all the delegates present to support it till the end. The miners enter the present strike with more enthusiasm and confidence than any struggle they have undertaken for years.

GONE INSANE.

The Troubles of Moses Bradford, a Wealthy Man of Grant County.

WABASH, Ind., Nov. 27.—Moses Bradford, at one time the wealthiest resident of Grant county and known all over northern Indiana, is reported to be insane and an insanity commission is investigating the case today. Mr. Bradford was one of the original directors of the Toledo, Delphos and Burlington railroad, now part of the Clover Leaf line. Also, he was identified with the Pan Handle when that road was being constructed across Indiana. He, in addition, personally secured many miles of the right of way from the Cincinnati, Wabash and Michigan. Lately he has had a good deal of trouble financially and a marriage which he contracted in 1889 with a milliner, who married him for his money, proved very unhappy. He is said to be in a pitiable condition now. The application for a commission was made by his daughter.

EX-DICTATOR FONSECA

Surrenders Everything but His Life, Though That May be Asked.

VALPARAISO, Nov. 27.—Advices received here from Rio de Janeiro, Brazil, state that Fonseca, besides abdication of the dictatorship, has renounced his title of commander in chief and retired to private life. The papers are, however, demanding the impeachment of Fonseca and also of his ministers, on the ground that they are responsible for the moneys spent during the short-lived dictatorship. The governors of all the states have proclaimed in favor of the new president, Peixotto. It is rumored that the federal capital will be removed from Rio de Janiero to Niotheroy. General Ossorrio, who commanded the insurgent army in Rio Grand do Sul, made a demand on the upper Uruguay squadron that it give in its adhesion. The demand met with refusal and the squadron has gone to anchor in Argentine waters.

A JOYOUS THANKSGINING.

Two Life Prisoners Pardoned by Governor Russel Yesterday.

BOSTON, Nov. 27.—According to custom, the governor pardoned two state prison convicts on Thanksgiving day. The fortunate men are Charles A. Beggs, who was convicted in 1891 on a life sentence for murder in the second degree in killing Charles Slaison because of jealousy on account of Bregg's wife, and Thomas H. SHOT BY A BOY.

A Case of Mistaken Identity Results in the Death of Charles Jones.

ELMIRA, N. Y., Nov. 27.—Charles Jones, manager of the Postal Telegraph office in this city, was probably fatally shot last night. The shooting took place about 7:30 o'clock on the porch of the residence, No. 435 West Clinton street. Jones was accustomed to call upon a young lady who lived there, but had moved. He called at the place last night and asked for the young lady. The woman who answered his call replied: "I know you. Give it to him, Bert." Almost immediately Bert Vincent, aged fifteen, a school boy and son of the woman, commenced emptying a revolver into Jones' body. Four shots were fired, one entering the man's abdomen and three his legs. Jones fell to the ground and was picked up by passers by, who notified the police. He was removed to the Golden hospital, where he lies in a critical condition. Mrs. Vincent, who is a widow, and her son were arrested.

CAPE SHIEK SHAIB,

An Important Naval Position, Ceded to France by the Sultan of Turkey.

BERLIN, Nov. 27.—This city is treated to another sensation today. Yesterday it was the rumor that Chancellor Von Caprivi intended to resign and this morning the good people at Berlin are startled by the announcement, made by the Kruz Zitung, an influential daily paper, that, by a secret agreement with France, Turkey has ceded Cape Shiek Shaib in the Persian gulf to France. Cape Shiek Shaib is on the Island of Bushir, of Bushesh, eleven miles from the north coast of Persia, and it might be strongly fortified and otherwise made use of as a harbor for a French fleet. Between the main land and the island of Sheik Shaib, of Bushesh, is said to be water affording good anchorage for the largest war vessels. This would give France a depot and a possible landing place for troops not far north of the British possessions in India and might under certain circumstances enable France to cooperate with Russia, should the latter country's troops invade Persian territory and possibly continue an onward march towards India itself. Turkey, according to the Kruz Zietung, is said to have taken this step owing to the uneasiness felt by the Sultan and his advisors at the action of England in continuing the occupation of Egypt in spite of the protests of France and Turkey indirectly against such a course. It is concluded that in fortifying Sheik Shaib, or Bushesh, France threatens Great Britain's hold on the Red sea, made practically a British lake, by the fact that England holds Aden (the Gibraltar of the east) at the entrance of the straight of Babelmandeb leading into the Red sea. This rumor regarding Sheik Shaib is not exactly new so far as France's desire to obtain possession of that island, but if the Kruz Zietung is to be believed, the matter is now a fait accompli, and is, therefore, a matter of greatest importance. Since the Kruz Zeitung's news was made public there has been a constant exchange of telegraphic messages between the German foreign office and some of its representatives on the road. But all information upon the Sheik Shaib matter is refused by the official in charge.

GERMANY'S TARDINESS

Gives France the Friendship of the Belgian Government.

BRUSSELS, Nov. 27.—The Belgian government has been assured by the French minister here that France will protect Belgian interests in China and that France will also claim an indemnity for Belgium from China for the massacre of Belgian priests in Mongolia, as previously exclusively detailed in these dispatches. Consequently the Belgian government has notified the representatives of the Chinese government that all Belgian subjects in China are under the protection of the French legation. The action of France in this matter has caused the liveliest feeling of satisfaction in many circles here, though it is clearly seen that this step is only another by play on the part of France, for the good will of Belgium, in which bidding it is an open fact that she is competing with Germany for the same object. Indeed it is said that Germany had decided to take the identical step that France has now taken, but that the diplomatic machinery of France worked much more quickly and easily than that of Germany.

After killing Mrs. Bass, the murderer went to the home of his mother in Grant county, but when the officers attempted his arrest he bluffed them off. Boswell has been indicted for murder in the first degree.

A warrant has been issued at Valparaiso for the arrest of William O'Donnell, superintendent of the Columbus Construction company, it being alleged as a part of a conspiracy to assist James Dalton, a Chicago crook awaiting trial, that Mr. O'Donnell surreptitiously obtained possession of a large sum of money on deposit in one of the banks, with which he left the city. This money was originally found in the possession of Dalton, and was deposited for safe keeping, the authorities relying on its identification to convict Dalton.

FRESH FISH AT THE JAIL.

Sheriff Viberg gave a Thanksgiving dinner to the prisoners at the county jail, and it may have been in the hope of feasting upon some of the delicious viands that were left over for today that caused the seven offenders, who were taken to that bastile this morning, to fall into the hands of the officers of the law. Six of them were arraigned in police court this morning, and, after the mayor had given them a hearing, the docket of Marshal Franke presented the following record:

Wm. Driscoll, John Johnson, John Smith and John Franz, drunk and fighting, arrested by Officer Bourgman and Lieutenant Lapp, fined $11.50 each; Wm. Thompson, drunk, arrested by Officer Gain, fined $10.50; Frank Daveny, drunk, arrested by Officer Bourgman, fined $10.50; Martin Anderson, drunk, arrested by Officer Walda, drunk, fined $10.50, paid and was released. All the prisoners but Anderson were taken to jail.

Three of the first fellows named above had been quarreling in a saloon on Main street, and Lieutenant Lapp and Officer Borgmann, who were passing, stepped in and arrested the three fellows. Franz was inclined to resist and Officer Borgmann gave him a bad pounding before the "Lily" arrived. A young fellow named Driscoll made an effort to take Franz from the officers and was arrested for his trouble.

Deputy Sheriff Stell yesterday morning arrested a man named Bowman on the charge of embezzlement. Bowman has been selling rugs from house to house on the time payment plan for Harry Ridgeley. It is alleged by Ridgeley that he is out about $100 worth of rugs. He supposed Bowman had them out in homes in the city, but discovered that he had the goods in pawn. After being arrested Bowman at first denied that he had pawned the rugs, but yielded and confessed when Mr. Stell showed him one of the pawn tickets he had secured in some way. He was taken before Justice Wilkinson and in default of bail was sent to jail.

This is a frequent thought, and a wholesome one.

The snow did not come to stay.

December will be here next Tuesday.

The bones of the Thanksgiving turkey will bleach in the sun.

The number of presidential electors on the new basis will be 444.

The next great holiday is Christmas, which will be here four weeks from today.

W. R. ROBERTS, private secretary to Governor Hovey, will continue in the same capacity under Governor Chase.

The turkey is a native of North Carolina, at least that is where he was first seen, in 1584. It was a hundred years later before he was domesticated in Europe. How he got his name does not appear.

GOVERNOR HOVEY is the third Indiana governor to die in office, Ashbel P. Willard being the first and James D. Williams the second. Willard died October 3, 1860, and Williams, November 20, 1880.

JEFFERSONVILLE is trying to suppress one of its leading industries, an ordinance having been introduced in the city council to abate what are known as matrimonial runners. Agents of the various 'squires watch the ferries, and every couple under suspicion of being principals in an elopement are wheedled and coaxed, and sometimes fairly dragged to the particular 'squire represented by the agent.

THAT Governor Hovey must have had a slight premonition of the danger of his illness is a fact beyond question. Private Secretary Roberts relates that on the homeward trip from Mexico Governor Hovey called him to his side one afternoon and said: "Roberts, if there should be any serious result from this present illness of mine, there are several matters of importance that I want you to be sure and attend to." The governor then gave his instructions as to the affairs in question.

IN his Thanksgiving sermon at the Second Presbyterian church Dr. Moffat had the following to say concerning Sabbath rest: "Christianity gives us the law of the Sabbath rest. Science has now shown that this is a law expressing a need of our physical, mental and moral nature. In the words of our Savior, 'The Sabbath was made for man.' Beware of such movements as would deprive the people of this rest. The movement for keeping the great Columbian fair open on the Sabbath for the benefit of the working people, is to be deplored, both for its direct effect and for the inevitable influence it would give toward a breaking down of the day of rest. 'For the benefit of the working people!' These are the very people who are most vitally concerned in the preservation of the Sabbath rest."

THE Hermitage association is a national organization of women, formed a year or so ago, with the object of restoring and beautifying the old home of President Andrew Jackson, near Nashville, and to make it an attractive spot to the thousands of visitors who find their way there every year. The association was duly chartered, and by an act of the legislature was given in trust that portion of the Hermitage grounds upon which are located the mansion, cabins, little brick church and the tomb of Jackson. Three thousand dollars have been expended in making repairs, but much remains to be done to restore the home to its original beauty. The association proposes to do its work thoroughly, to purchase the furniture and a great number of historic relics that the house contains, to renovate buildings and to leave nothing undone that will render the Hermitage one of the places in which Americans will feel a pride and patriotic interest. In order to accomplish this purpose more money is needed, and the association, encouraged by the success of the Mt. Vernon association in its similar enterprise, appeals to the public for contributions. An especial appeal is made to citizens of Indiana who may be in sympathy with the movement. Mrs. C. P. Wood, [illegible] Powell street, Evansville, is authorized by the state board to receive contributions and issue certificates of membership for the Ladies' Hermitage association. All information on the subject may be obtained from her.

CONGRESSMAN CRISP.

One of the Leading Candidates in the Speakership Contest.

Congressman Crisp, of the Third district of Georgia, is making a strong fight for the speakership. He is said to be the favorite for the office of the democracy in New York city.

Though he is not advanced in years, the coming will be his fifth term in congress. He was born in Sheffield,

England, early in 1845, of American parents. The same year he was brought to Georgia, where he was educated. He fought in the Confederate army with the rank of lieutenant; was taken prisoner and incarcerated in Fort Delaware. After his release, in 1865, he read law in Schley county, Ga., where, at Ellaville, he opened an office for practice. Subsequently he served in a local court as solicitor general, and in June, 1877, was appointed judge of the supreme court of the southwestern judicial circuit. He was elected to that office the next year and again in 1880. In 1882 he resigned in order to become a candidate for congress, of which he is a leading member.

THE PICTURESQUE POET.

Walt Whitman Patiently Awaiting the End of Life.

The noble old poet who, at his modest residence in Camden, N. J., is awaiting the end of his days, was first stricken with paralysis as long ago as 1873. He retired from his clerkship at Washington the following year, and since then has rested from all but self-imposed

employment. Mr. Whitman, it is understood, is provided with resources ample for his simple needs. Recently a friendly visit from Sir Edwin Arnold gave him a welcome surprise.

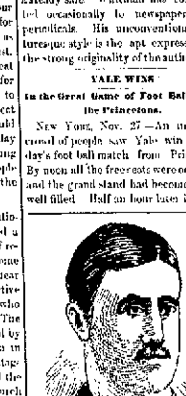

Walter Whitman is a native of Long Island, N. Y. He was born at West Hills on March 31, 1819. His business was that of a printer. When his brother was wounded in the civil war he procured an appointment as nurse, in which capacity he served at Washington and in Virginia from 1862 to 1865. During the ensuing nine years he held a clerkship at the Federal capital.

Whitman's masterpiece, his "Leaves of Grass," was first published in 1855. It was received with little but adverse criticism and continued to be a subject of depreciation, much of it of a frivolous sort, until Ralph Waldo Emerson followed by other eminent writers, both American and foreign, pointed out its peculiar excellence. "Leaves of Grass" has been republished several times and commands a steady sale. Whitman has contributed occasionally to newspapers and periodicals. His unconventional, picturesque style is the apt expression of the strong originality of the author.

YALE WINS

In the Great Game of Foot Ball With the Princetons.

NEW YORK, Nov. 27.—An immense crowd of people saw Yale win yesterday's foot ball match from Princeton. By noon all the free seats were occupied and the grand stand had become fairly well filled. Half an hour later it began

McCLUNG, (Yale's Captain.)

to rain, but the people kept coming just as fast as ever. By 1:40 every available space about the field was occupied. There were fully 35,000 persons present when the Yale team at 2 o'clock filed out of the club house and came onto the field. They were followed almost immediately by the black and orange striped young men of Princeton. Princeton won the toss and chose the west side of the field, and the game commenced. During the last innings of which it rained quite heavily. At the end of the first inning, when the rain poured down in torrents, the score stood Yale, 19; Princeton, 0. Time was called with the ball slightly in Yale's territory. The bluffs resounded with cheers. The crowds went through the rain homeward unmindful of everything except that they had seen a great game of foot ball.

Beginning with the intercollegiate association in 1877 Princeton has held the championship seven times and Yale a like number. In the Princeton-Yale games Princeton has made the largest score five times and Yale six times; in three of the games no score was made by either team.

B. W. TRAFFORD.
(Captain of the Harvard team.)

On account of Harvard's great pretensions this year it may be of interest to recall the fact that since 1877 Princeton and Harvard have met on the football field eleven times. Of these games Princeton won eight and Harvard two, and one game was a draw. The championship has always lain between Princeton and Yale.

INDIANAPOLIS, Nov. 27.—The Indiana college football championship was won yesterday by Purdue university. Score: Purdue, 58; Butler, 0.

THEOSOPHY UNHORSED.

Rev. Dr. Moffat Pays His Respects to the Theosophic Fad.

In his Thanksgiving discourse at the Second Presbyterian church yesterday morning Rev. Dr. Moffat, in speaking of theosophy, said: "It is amazing that intelligent men can be found who could say of the teachings of Madame Blavatsky that they were not opposed to Christianity. Christianity has its root in the doctrine of an extramundane, Supreme God. A God who is just, but who exercises mercy and forgiveness. Blavatsky's theosophy knows no mercy, no such thing as forgiveness. Christianity teaches the efficacy of prayer offered in the name of Christ. There is no incitement to prayer in the doctrine of Karma, where the inexorable decree is that the exact penalty of every sin must be visited without diminution or amelioration upon the transgressor. The recognition of Jehovah as God, includes the recognition of his incarnate son, as the Divine Savior and all atoning sacrifice. Theosophy with all its non-sensational tenets, its secrets, occult principles, and its Mahatmas, who unseen can transport themselves through thousands of miles of space in a few moments of time, discover lost treasures, etc., robbed of its externalities, is but a revivication of the Neo Platonism, that has been dead for more than a thousand years, and of Hindooism, whose product is to be seen in the semi-civilized society of India today."

He then spoke of the various ways in which the recognition of God promotes the welfare of man, and in concluding his sermon, said:

"Some people approve the ethics of the teachings of Jesus. They praise the system of morality He inculcates, but want none of the religion He teaches. They want motion, not life. They are content to have the train go, but they don't want to be hitched to a locomotive. Compare the nations of the earth where Christianity prevails with those where it is unknown or rejected. Place England in comparison with India, Scotland with Siam, the United States with China, and you but illustrate the truth of my text. Obliterate all that Christianity has done and where would our nation be? Our pilgrim fathers came to the rocky shore of New England in search of a place where they might be free in their worship of God. Civil and religious liberty was wrought out under the inspiration the Gospel breathed into such men as these. We fell into grievious sin but the overthrow of slavery with all its cruel injustices came through the leading of providence, the teachings of Christianity and the ideas of justice and equity found in the Bible.

"The continuance of our nation depends on the intelligence, and the moral and religious character of our people—not on the intelligence only. Free schools had their origin in the conception of religious men, and in their attempt to promote human welfare.

"The Christian religion is not a something tucked on to a character, it is a spirit that pervades the whole man. It teaches as its fundamental doctrine that the greatest gift ever made to man was the gift of the Divine Son of God as the Savior of men, and that His law is the highest expression of human obligation."

18 Pounds of Blood

Is about the quantity nature allows to an adult person. It is of the utmost importance that the blood should be kept as pure as possible. By its remarkable cures of scrofula, salt rheum, etc., Hood's Sarsaparilla has proven its claim to be the best blood purifier.

For a general family cathartic we confidently recommend Hood's Pills. They should be in every home medicine chest.

The lines which haul the anthracite coal out of Pennsylvania are moving the largest tonnage ever known, the production of the mines and the consumption being unprecedented.

The grand chief of the Brotherhood of Railway Carmen announces that its rolls now show a membership of fifteen thousand. The organization is but a little over two years old.

Some of the employes in the Pittsburg shops who spent Thanksgiving out of the city failed to return in time for work this morning. In consequence some of the departments are short of hands today.

The mines of Ohio are now shipping 1,500 car-loads of coal a day, those of Illinois eight hundred per day, while Indiana mines, which should be doing as much business as those of Ohio, are shipping from fifty to seventy cars a day.

Gilmore's band came in last evening on a special over the Wabash barely in time for the entertainment. At Wabash, where their special coaches were transferred from the Cincinnati, Wabash and Michigan road, their train was delayed and they did not reach Huntington, where they gave an entertainment in the afternoon, until 3 o'clock. This was the cause of the delay in reaching this city. The special bearing the band left at 9:30 this morning over the Wabash for Marion, Ind., where the musicians give an entertainment tonight.

The following statement of the business of all lines of the Pennsylvania Railroad company was issued yesterday: All lines east of Pittsburg and Erie for October, 1891, as compared with the same month in 1890 show an increase in gross earnings of $215,248, an increase in expenses of $378,347, a decrease in net earnings of $163,088. West of Pittsburg and Erie for October, 1891, as compared with the same months in 1890 they show an increase in gross earnings of $302,439, an increase in expenses of $12,252 and an increase in net earnings of $290,187.

Peter H. Wyckoff, general freight agent of the Central railroad of New Jersey, was arrested at New York yesterday upon an indictment found by the United States grand jury for the eastern district of Missouri on October 31. The charge is violation of the inter-state commerce law. The Central railroad of New Jersey, the Wabash Railway company, the New York, Chicago and St. Louis Railroad company and the Delaware, Lackawana and Hudson had established joint tariffs of rates and charges upon shipments of locomotive brakes over a continuous line and route operated by them from East St. Louis to Philadelphia at 33½ cents per hundred pounds. The charge is that the American Brake company was allowed a rebate, a charge of but 31½ cents per hundred pounds being charged against it. Wyckoff was released on $100,000 bail, which was furnished by Loyal Farragut. An examination will be had before Commissioner Shields on Friday.

Grand Master Frank Sweeney of the Switchmen's Mutual Aid association, has just returned from an extended trip to New York and other eastern points. While in New York Mr. Sweeney attended a conference between a sub-committee of the inter-state commerce commission and the delegates from the Switchmens' association, to consider the question of recommending national legislation to secure uniformity in the height of freight cars and to adopt a uniform car coupling. He says the great obstacle in the way of securing such legislation is the conflicting claims of patentees of various inventions to lessen the danger attending the work of switchmen and brakemen. While the universal adoption of almost any one of these devices would greatly lessen the danger of the work of the men, so many of the railroad companies are interested in these various patents it is next to impossible to get them all to agree on one and recommend it for general use. Mr. Sweeney says, however, that he has more hope of the good results from the conference just ended than from anything that has been held before.

Physicians' prescriptions have failed to reach many cases of rheumatism known to have been subsequently cured by Salvation Oil. That is the reason why the popular voice is practically unanimous in its favor. One bottle is usually sufficient.

No other preparation combines the positive economy, the peculiar merit and the medical power of Hood's Sarsaparilla.

As one instance of the way in which men are sometimes entangled in a train of circumstances from which only a Vidocq or a Gaboriau could extricate them, the accident which recently happened to a traveling man in Milwaukee is in point. Presumably all Gaboriau's stories are fictions, but this tale comes from a newspaper correspondent and therefore must be true. The traveling man in question represented a champagne house. He did it very diligently, and then went to his hotel, climbed into the bath tub, fell asleep with the water running and was nearly drowned. Had his nose sunk two inches lower the newspapers would have reported a suicide. No power on earth could have proved that he did not drown himself intentionally. No detective could have shown conclusively that death was accidental. There is enough in the incident to make one reflect that it is wise not to judge appearances. In a fight between a man and a set of conspiring circumstances the man has no show whatever. To condemn a dead man for supposed suicide on suspicion is in many cases to commit a slander.

It may strike one like carrying coals to Newcastle to establish a cooking school in Paris, but this is what has been done recently by the principal chefs, in order that their art may be perpetuated. It is said that a marked decline has been noted in the French cuisine recently. This is ascribed partly to lack of interest among wealthy people and partly to the hurry of business life, which has seriously affected the restaurants. The new training school is intended especially for French pupils, but foreigners will be permitted to attend the lectures and thus get some glimpses of artistic cooking.

There is a kind of a summer girl out here in the West whom you never read of in the papers. Her neighbors do not associate her with cool white dresses, idleness, novels, and hammocks, but they think vastly more of her. She is the kind of a summer girl who puts up fruit in the hot kitchen, who is her mother's help, and who knows more about the ingredients for making a peach cobbler than she does about the latest style of a lawn-tennis dress. She is the Western man's ideal of all a summer girl should be, and all wise men of the East agree with him after they have tasted some of her cooking.

William J. Florence had about two hundred costly flasks, sovenirs of friends.

The Dearest Spot on Earth is the spot that's washed out *without Pearline.* It costs in clothes, in the rubbing and scrubbing that wears them out quickly; it takes twice the time, and double the labor. It's expensive washing before you get through with it—and the cost comes home to *you*, no matter who does the work.

Pearline saves money by saving work, wear, and time. It hurts nothing; washes and cleans everything. It costs no more than common soap, but it does more. It's cheap to begin with—but it's cheapest in the end.

Beware of imitations of PEARLINE which are being peddled from door to door. JAMES PYLE, New York.

The Madison square success, "The Burglar," comes to the Temple Wednesday next. It is a positive fact that more ladies and children have been entertained with "The Burglar" than with any other play of recent years. A criticism of the entertainment is uncalled for save to speak highly of its merits. The program, both instrumental and vocal, was of the highest order.

The Plymouth Democrat says: "Van Keuren Bros. have sold their Bankrupt store, opposite the Democrat, to Bosworth & Carpenter, two enterprising young men from South Bend. They take possession today, and Mr. Bosworth has rented the residence now occupied by Mr. Harry VanKeuren, who will remove in a few days to Fort Wayne, where he and his brother will engage in the shoe business in one of the rooms of Mr. Sear's Arcade building."

A number of guests were highly entertained at the Brookside home of Hon. J. H. Bass and wife yesterday.

Another test of the street car fitted with Slattery's storage battery electric power, will be given within a few days.

Next month Miss Carrie Houghton, of Defiance, who has often visited this city, will be married to Clarence Wells, of Detroit.

The young men of Zion's Lutheran church gave a supper last evening. The church parlors were crowded and the receipts were beyond all expectations.

Mrs. James Adams, wife of Conductor Adams, of the Wabash, and daughter, of Danville, Ill., are guests of D. F. Hayes and family, of 20 West Williams street.

Rev. Theodore Stellhorn, of Columbus, Ohio, son of Professor Stellhorn, of this city, is here to spend his holiday vacation. He will preach next Sunday at Grace Lutheran church, corner of Pontiac and Hanna streets.

The Swedish Concert company, male quartet, third number on the Star course City Y. M. C. A., will appear Thursday, December 3. Reserved seats secured Tuesday, December 1, at 10 o'clock. Persons wishing to change seats must call Tuesday.

The children's entertainment at the Baptist church last evening was a financial and social success. During the evening Mrs. Anderson, of Logansport, rendered two very pretty piano solos, which were received with great applause. The receipts of the evening were a trifle over $12.

The Bostick buildings, at the corner of Lafayette and Holman streets, have been leased by the American Oil Tank Manufacturing company, of which newly incorporated organization THE SENTINEL made mention yesterday. Equipments for the manufacture of the new self-measuring tank to be made by this company, will be placed at once.

While going to a fire on Creighton avenue yesterday, the hook and ladder truck of engine house No. 1 was upset while turning a corner, and August, Tremmel, the driver, was thrown to the ground and seriously injured. His back was sprained and he suffered internal injuries. A man named Shock, who is tillerman of the truck, was also injured.

Wednesday evening at the home of Rose Nathan the K. S. O. S. S. society was organized. The young ladies have arranged for a series of entertainments to be given during the winter at the home of the members. Those interested in the club are Misses Rose Nathan, Laura Oppenheimer, Belle Rothschild and Bertha Wiler, of Logansport.

The recent failure of the North American Mutual Insurance company at Chicago, and the subsequent disappearance of some of its officers affected several of its assured in this city. Mrs. Mary, wife of Anthony Hilleke, of 78 Williams street, died Wednesday morning at 10 o'clock of throat consumption. She was a kind and affectionate wife and a loving mother. She leaves behind a husband, two children, a brother, Hugh Gallagher, of Ohio, and four sisters, Bessie and Rose, late of San Francisco, Cal.; Emma, living at Indianapolis; Kittie, of Terre Haute, all single. The congregation of the A. M. E. church held a Thanksgiving concert and social at their East Wayne street church last evening, which was largely attended, the church being crowded to the doors. After prayer by the pastor, Rev. Jeffries, the exercises were opened with a song by the double quartet. Then followed recitations, dialogues and songs. Recitations by two little white girls, solos by Mrs. Adams and Mr. Gresham, and songs by the quartet, composed of Mr. and Mrs. Adams and Mr. and Mrs. Gresham, are deserving of special mention. After the concert a fine supper was served in the old church in the rear of the new building.

The entertainment given by Mr. and Mrs. Surrick at the city department Y. M. C. A. last evening was unusually fine. It would be difficult to tell the most interesting feature. The colossal dissolving stereopticon views of scenes in Rome, London and Paris were magnificent. Exceedingly realistic was the touching moonlight scene of the persecuted Christians in the old amphitheater at Rome, exposed to the fury of the wild beasts. The impressiveness was enhanced by the soft strains of "Nearer My God to Thee" drawn from an autoharp by Mr. Surrick as the audience gazed upon the stirring sight. Mrs. Surrick recited in an admirable manner "Rock of Ages," and accompanying this selection appeared illustrations of it on the canvass which elicited hearty applause from the audience. This evening Mr. and Mrs. Surrick will again present stereopticon views and songs consisting largely of American scenery and incidents in American life.
